WA Blues and Roots Promotion Presents:
WESTERN AUSTRALIA'S HOTTEST WOMEN IN BLUES
Introducing WA's first all female Blues Band!
'SISTER MOJO'

There is something truly spectacular about singer, songwriter Mia Joy. Whether it is her amazing voice or her original musical phrasing and style, this lady can belt out the tunes. Mia's ability and vocal range is unique, from a strong lower register to high sweet haunting tones, just breath taking. Mia's soulful bluesy vocal style has been honed through many years of performing at home in Australia and internationally. Mia has supported some of our best acts at concerts and festivals. Mia along with Rob Garnett owns Blue Earth Studios. She has successfully written, recorded and produced 3 albums of her own music and while sharing her knowledge in teaching she has produced and recorded albums for many other talented musicians.

Annemieke has been performing live and recording for more than 20 years. She is a highly accomplished guitarist who is held in very high regard by her peers and fans alike. Annemieke has been recognised with an endorsement deal from Mesa Boogie Amplifiers. Annemieke is best known for her work within several Perth bands including Blush and the very first all female original WA band Siren. With a huge following in Australia and the USA Siren released a four track. E.P, video and contributed material to Channel 7 television and Triple J radio. She has also recorded an instrumental solo album. Annemieke brings with her a wealth of knowledge, style and expertise.

Izzy has a genuine passion for blues that shines through in her drum playing. Using her two best attributes "big ears and great feel" which are something to be admired. She aims to create an authentic blues experience that touches the soul of the listener. Describing her personal style as "Spicy Charlie Watts". Izzy has been performing in Perth and rural WA for over 12 years with many bands. She feels privileged to have played with some truly great talents and extends her gratitude to Ron Smeeton – legend! the late Jack MacNamara (vocalist), Graeme "Whitey" White (bass) and Rik Shnick (drummer) for their contribution to her musical journey.

Kelly loves all facets of music. She dabbles with lots of instruments, but she always comes back home to the bass, she is addicted to the injection of feel. She spends most of her spare time either performing live or writing music. The natural rawness of her compositions and performances gives honesty the appeals to the real. Recently you would have seen Kelly with the all female line up VAMP performing awesome shows all over WA including support shows for some of Australia's best bands. Blues has been a naturally driven extension of Kelly's' playing, concentrating on her love for the blues since joining Sister Mojo.
